

Managed Care Concepts: Healthy Track

Successfully managing your life with diabetes can be challenging. Healthy Track is a platform of healthcare services designed to get and keep you on a “healthy track”. This is accomplished through the FDA approved MyGHR system which provides real time data and comprehensive Nurse Navigator support.

WHAT IS INCLUDED?

Healthy Track includes a Genesis Blood Glucose Monitor and MyGHR system, as well as 24-hour access to the Diabetic Care Line (1-866-751-2723) and full access to the Health Track Nurse Support line (1-866-750-2723).

The Genesis Blood Glucose Meter accurately tests glucose levels and automatically sends the results to the patient's secure and personal on-line MyGHR account, which can be shared with healthcare professionals or individuals involved in patient care. The Genesis meter has an intuitive user interface and is easy to use, including a color LCD screen, rechargeable battery and the ability to store up to 450 readings.

WHY USE HEALTHY TRACKS?

The MyGHR system eliminates the need for traditional paper logbooks and contains features for running test history reports. In addition, the system can be programmed to send text message alerts of test results to any mobile phone or to your physician!

HOW DO I PARTICIPATE?

Call the Diabetic Nurse Line Support at 1-866-751-2723 to begin!
